SHRUTI KUMARI

UI/UX Designer | Product Designer

Bokaro Steel City | +91 9572697539 | Shruti786aaa@gmail.com

LinkedIn: shruti-singh0218

PROFESSIONAL SUMMARY

UI/UX designer with a background in Fashion Communication and hands-on experience across healthcare applications, consumer products and brand websites. Combines user research and visual design to translate complex requirements into clear information architecture, intuitive workflows and cohesive interfaces. Skilled in Figma, interaction design, prototyping, usability testing and design systems, with an approach grounded in understanding everyday user behaviours and carrying insights through to design and development handoff.

EXPERIENCE

UI/UX Design Intern | Janitri Innovations Pvt. Ltd.

Dec 2025 - Apr 2026

- Designed a neonatal care application and doctor monitoring dashboard, defining information architecture, user flows, interaction patterns, and key interfaces.
- Conducted consumer research and developed user/task flows for the Janitri for Mothers B2C app revamp, contributing to a released pregnancy-monitoring product with 10K+ Android downloads.
- Conducted field research across 3 hospitals and interviewed 6 nurses to uncover workflow gaps and translate findings into product requirements.
- Designed end-to-end UX for a nurse-facing ANC application, including standardized workflows, information architecture, design system, and interactive prototype.
- Designed interaction flows for MEOWS assessment, symptom flagging, AI-assisted predictive insights, and NST monitoring, and validated core workflows through prototype testing.
- Designed CMS alert and empty states for Janitri's Assam public-health rollout, supporting centralized maternal and fetal monitoring across 41 government hospitals and 82 cCTG devices.

Visual Design Intern | Sant Ram's - Jazaa

Jun 2025 - Aug 2025

- Defined website UX/UI and information structure for Jazaa; explored logo concepts, typography and visual identity for the jewellery brand.
- Contributed to launch marketing and digital brand presence, maintaining consistent visual language across touchpoints.

SELECTED UX PROJECTS

Matera | Product UX and Prototyping

Defined end-to-end UX and a design system for Matera; delivered a working prototype for usability evaluation and handed the designs over for development.

Jazaa Jewellery Website | Website UX and Visual Design

Defined the website structure and UX/UI for an upcoming jewellery brand, connecting navigation and interface design with typography, visual identity and luxury positioning.
